BULLETIN

Project Managers Appointed

Chawton Hill have been appointed as our Project Managers. John Martyn has been meeting with them and they are proving really helpful.

Architects Invited

After taking careful advice, seven teams of architects have been invited to express their interest in the project. Six have done so and three have been short-listed. John and team will be interviewing these teams during the week beginning 11 November and we hope to appoint an architect shortly after. *Please pray for God's clear direction as this important decision is made.*

Drawings to be Prepared

The architect will then prepare drawings for us based on the planning brief John will pass to him, along with all the preparatory work that has gone before. It will be really exciting to receive these drawings and to share them with the fellowship. Please pray for skill for the architects as they prepare the plans. We look forward to an attractive, functional building, with some architectural flair to enrich the design. *Pray for that inspiration!*

Liaising with Planners

We shall liaise with the planners as the plans are prepared and will move towards a planning application as soon as we are able. *Please pray to that end too!*
